John Doe

Document Engineer

📞 +1 (312) 555-0198 ✉ john.doe@example.com 🔗 www.linkedin.com/in/john-doe 📍 Spring Hill, CA, USA

Summary

Builder of systems and smoother of processes, both in code and documentation. Believes great tooling beats great formatting—and AsciiDoc proves it.

Experience

Senior Software Engineer RocketTech Inc. · 2020–Present • Introduced AsciiDoc-based workflows for resume and assessment automation • Built internal tools for developer onboarding and documentation pipelines

Technical Consultant DevWare Solutions · 2015–2020 • Delivered backend systems for enterprise clients using Java and Python • Helped teams transition from Markdown to AsciiDoc for structured documentation

Software Engineer CodeWorks Inc. · 2008–2015 • Maintained and modernized legacy systems • Led internal tooling improvements and documentation cleanup efforts

Strengths

Documentation Automation – Turns documents into versioned, repeatable workflows using AsciiDoc and Git.

Developer Experience – Builds tools and processes that simplify work and reduce friction.

Languages

- English: Native
- Spanish: Advanced

Tools & Skills

- Asciidoc
- Git
- CI/CD (Github Actions)

Personal

- Enjoys long talks
- Coffee enthusiast
- Loves building things with LEGO

Most Proud Of

Building a fully automated documentation workflow that transformed the way his team creates and shares technical assessments, resumes, and internal docs—turning scattered files and formatting chaos into a consistent, version-controlled system that just works.
